Nomination for the Post: Treasurer
CSI Elections 2022-2023/2024

Statements of Intent:

If I will get the chance to serve the office,

- I will work for students, academia and industry for the benefit of society.
- I shall work towards enhancing the quality of CSI conferences, workshops and programs in communication and computer networking and allied domains across India and building strong base for international collaboration for the benefit of CSI and its stakeholders, especially its young members.
- I shall enhance the level and quality of interaction between academia and industry exploring various opportunities for joint research by engineers from industry and faculty members and research scholars in education and research.
- With my past editorial experience such as Editor-in-chief for National Journal of Computer Science and Technology, I would explore more avenues for enhancing the CSI Communication and Journal at a larger scale.
- Having experience in teaching, research & development and industry interaction, I would contribute significantly towards human resources development through focused programs such as faculty development programs, finishing school programs for graduating CS/IT engineers and technology appreciation programs for society at large in Communication and computer networking and allied domains.
- I want to take the responsibility to bust up the Membership of CSI at an International Level.
- Planning to organize International Conference on Cyber Terrorism.
- Planning to collaborate Computer Society of India with Open Universities and to explore more avenues to attract the students of Open and Distance Learning and Online Learning.
- Planning to have an association of CSI with industry so that CSI can be a platform of **Placement** for students of all the branches and they can be even more benefited from it.
