STATEMENT OF INTENT

If elected for the post of RVP Region-1, I wish to undertake the following seriously :

1. I will collect the data from the Chapters and will devise a plan to make them more vibrant so that we have better connect with the technocrats and IT and Computer related people. This will not only increase the acceptability of CSI but also will help us in the increase of membership.
2. We will have to work with the Institutions of the Region so that we are able to convince them to have institutional membership. This can be achieved through the series of activities i.e. Technical Lectures, Talks, workshops which can be arranged in these institutions aiming at benefitting the students.
3. I wish to increase the Number of Student Members many fold. That can be achieved only when we deliver something constructive to the student members. I will try to implement special programmes for these members so as to give them not only the expert knowledge of the subject but also enhance their communication skills and personality as a whole.
4. I shall seriously plan and try to create a situation where CSI is considered as an advisory body / active partner in the implementation of the State Govt. projects of the states which fall under Region-I.
5. There is no need to say that I will try to promote the overall activities of CSI in the Region as it will be my basic duty.

(Arvind Sharma)
