

## **Special Interest Group on Innovation and Entrepreneurship (SIG-IE)**

### **Introduction and Invite to Join**

India is country with high percentage of youth population. There is need to provide gainful and productive engagement to them. It is difficult for any government to produce so many employment opportunities. To generate employment, there is need for initiative from each and every individual. Government of India has come up with many schemes for development of entrepreneurship eg. Start Up India, Stand Up India, Make In India etc. Currently most of start ups are related to IT products and services and are using IT for delivering the services with better quality.

CSI envisages to promote entrepreneurship and assist in creating and incubating entrepreneurs. For this a Special Interest Group has been formed. CSI has many budding and established entrepreneurs as members. This may become suitable platform for interaction among these people. SIG will monitor and scan entrepreneurial opportunities in country and will promote among members. Member may be benefited by this initiative and will result in contributing our 2-cents in nation building using this SIG.

We request CSI members interested in entrepreneurship in practice or academic should register in this SIG. For registering, please visit following web page on CSI India website: <http://www.csi-india.org/entrepreneurship.aspx>.
