

CSI-2015
50th Golden Jubilee Annual Convention
On
Digital Life
(02nd – 05th December, 2015)

31st August, 2016

Dear Author(s),

Thank you so much for your active interest and overwhelming response to CSI - 2015.

Ideally, 12 - 20 weeks is a lead time, taken by Springer, to publish the Proceedings. However, being 10 volumes of proceedings and over 600 papers, the total work is voluminous enough and is taking more time than the required one. Further, as it involves many quality check steps like cross examination of all the papers for Plagiarism Check using iThenticate, type setting and formatting, related editing, required corrections after corrections, proof reading from authors, etc. that too in multiple cycles, it is taking more time. As per the latest update from Springer, the Proceedings are expected to be made available by end of **November, 2016**.

Once, it is printed, Springer shall be sending an electronic token to all the corresponding authors to enable them to download the copy of their papers (free of cost) from the Springer Web-portal. The hard copies, if required by the authors, will need to be purchased by the authors directly from the Springer.

We will also inform to all the authors via E-Mail and SMS, once the proceedings is available at the Springer Website.

Thanking you with best wishes,

-

(Prof. M. N. Hoda)
